

# THE JOHN WOOD COMPANY

an ALCO Industries Co.

[www.johnwood.com](http://www.johnwood.com)

## Our tanks and pressure vessels...

### :What we offer:

Water storage and hydro-pneumatic tanks  
Bladder type expansion, hydro-pneumatic and thermal expansion tanks  
Air separators  
Buffer tanks  
Flash tanks  
Boiler condensate tanks  
Air receivers  
Expansion/compression tanks  
Chemical feed tanks  
Custom bladder tanks and accumulators  
Custom Carbon Steel and Stainless Steel pressure vessels

### :Highlights:

Large inventory of standard products  
ASME Section VIII vessel design  
Welders certified in accordance with ASME Section IX and PED 97/23/EC  
Compliance with ANSI Standard B31.1 (power piping) and B31.3 (process piping)

## I Tanks I Custom Pressure Vessels I Fluid Handling Systems

With expertise in ASME pressure vessel design and fabrication, John Wood meets the needs of customers worldwide with products and solutions for water storage, building system control, and industrial process applications.

### :Certifications:

ASME Section VIII, Division 1  
Pressure Equipment Directive (PED) 97/23/EC  
Canadian Registration  
NSF/ANSI Standard 61  
American Bureau of Shipping (ABS)  
US Coast Guard (USCG)  
American Water Works Association (AWWA)

### :Testing Capabilities:

Hydrostatic pressure testing up to 5,000 PSI  
Pneumatic testing  
Radiography testing (RT)  
Positive material identification (PMI)  
Burnell hardness readings  
Liquid dye penetrant (PT)  
Ultrasonic inspection (UT)  
Magnetic particle inspection (MT)  
Production weld coupon testing  
Weld map tracking
